

*Change in Species Evenness*

Variable	Estimate	SE	df	t	95% CI
Intercept	-0.104	0.061	33.737	-1.695	-0.222, 0.014
Treatment (Phantom) <sup>1</sup>	0.176	0.086	29.000	2.046	0.011, 0.341
Treatment (Shifted) <sup>1</sup>	0.055	0.075	29.000	0.742	-0.088, 0.199
Year (2018) <sup>2</sup>	0.068	0.034	31.000	2.014	0.001, 0.135

<sup>1</sup> estimate reflects the difference in intercept between the specified treatment and control

<sup>2</sup> estimate reflects the difference in intercept between 2018 and 2017

Conditional  $R^2 = 0.603$ , Marginal  $R^2 = 0.120$
